

So, you don't think you can get bed bugs?

Have you ever...

- Had guests over for dinner?
- Had guests spend the night?
- Been to someone's home for dinner?
- Stayed in a hotel?
- Been to the airport or flown in a plane?
- Had a child in daycare, school or camp?
- Had a child in college?
- Hosted a slumber party?
- Rode in a taxi?
- Been to a movie theater?
- Had furniture or a new mattress delivered?
- Shopped at a thrift store or yard sale?

Then, you can have a bed bug problem

Bottom line: ANYONE can get bed bugs at any given time. Bed bugs have no preference to their victims.
